  - Implementation
    - Client-Server Interaction
    - State Diagrams
  - Test Outline
  - Problems & Challenges
  - Summary
  - Questions?

Action Items:

- Be aware of Scope Creep and know when to cut features.
- Add a little visual appeal, but do not go overboard. Functionality first.
- If you get nervous when presenting, find your center and start over.
- Do not be too meticulous with testing tasks. Keep it simple and straightforward.
- DO NOT STUDY FOR THE FINAL.
